## Letter of Recommendation for Easyconferences

To whom it may concern,

I met Petros Stratis for the first time in 2003 in Cyprus where he was recommended to us as an ideal local support for organizing a conference. We experienced how good this recommendation was right away:

Without his help we would probably never had founded the International Symposium for Leveraging Applications (ISoLA), which took place for the first time at Paphos Amathus (Paphos, Cyprus) in 2004, and whose fourteenth anniversary we celebrated at the Royal Apollonia (Limassol, Cyprus) in 2018, of course again with Petros Stratis' and his team's support. Petros' company, Easyconferences, really lives what one could call a 24-hour/seven-day support, which comprises all aspects one can think of, ranging from registration, hotel booking (where he was always able to offer very good conditions), (local) transportation, specific dietary restrictions and medical needs, side events, in particular for accompanying persons, and emergency situations due to delays, accidents, or any other reason. The whole team is all the time prepared to help, and I did not experience any situation yet which could not be resolved.

Even this year with the Corona pandemic, Petros Stratis manages to not only stay calm himself but also to calm down other involved people. He addresses their worries (what are the options, what happens with my payment, ....) and flexibly adapts to changing frame conditions.

Having organized various events with changing organizational support we are extremely happy to have Petros and his team on our side whenever we organize ISoLA which will be organized in Rhodes this year.

We also collaborated regarding various other conferences with Easyconferences' support, like the prestigious ETAPS which was held in Cyprus in 2010 and Thessaloniki in 2018

Indeed, for us it is clear that if we are going to organise any conference or workshop wherever in the world it should take place we would immediately turn to Petros asking for his and his Easyconferences team's support.
