

Conference and Event Management

i Profile

Our services cover all aspects of conference organization and are either offered on an ad hoc basis or as an all-inclusive package. Our extensive experience is our guarantee for watertight planning and coordination backed with careful selection of the right partners.

Our services extend from the conference website development, to online/onsite registration and support, and finally the successful closure of all matters relating to the conference. Our knowledge and experience have been the key factors in the development of our own software, www.easyconferences.org, which operates as a one-stop shop for conference registration. Participants are able to sign into the system and within minutes register for the conference, workshops, book their accommodation, transfers, social activities and other related services and pay instantly online.

Furthermore the system gives them total flexibility and they can make as many changes/amendments/payments as they like. Easy Conferences Ltd has been in business since 1992 and has been specializing in the complete organization of conferences and related activities in Cyprus and abroad. We have extensive experience in organizing events ranging from 50 to 1000 participants. We consult, manage and assist in every step of the process for any event, and thrive to deliver top professional quality, from the first telephone call to the final document.

CLIENTS

Our client base is very extensive and covers both the public and the private sectors. Our client base includes the Cyprus Government, the University of Cyprus, the Cyprus University of Technology, the University of Dortmund, the University of Potsdam, FIABCI, Electricity Authority of Cyprus and many other prestigious organizations from around the world. Easy Conferences will be happy to provide references and referee contact details on request.
