27<sup>th</sup> November 2018

To Whom it May Concern,

We were delighted to work with Petros Stratis and the EasyConferences team on the annual European Health Psychology Society (EHPS) Conference in Galway, Ireland during August this year. This was a major international scientific conference with more than 750 delegates held over 5 days. EasyConferences had worked successfully with EHPS since the 2015 conference and we were confident that they could help us deliver an excellent event in Galway. They were able to give expert guidance on all aspects of managing the conference over the 12 months that we worked most closely with them. The EasyConferences team were very responsive to requests for website, registration and abstract system information and request for modifications to all of these systems which were tailored to our needs. On many occasions they were able to respond within information or action changes within minutes of making contact. Petros obviously values high quality communication and took the time to make the long trip to Galway from Cyprus in the Winter months before the conference, so that we could consolidate our working relationship for the busy months ahead. I would be very happy to work with them again and I would have no hesitation in recommending them. The level of professionalism and their customer focus was outstanding. They have enabled the annual EHPS conferences thrive over the last 4 years and we are delighted that the organization plans to continue their working relationship with them.

Please do not hesitate to contact us if you require any further information in relation to this.

Yours sincerely,

---
